**Relocation Funding Awareness:** The candidate understands and accepts Orange Chapter's terms (e.g., contract length, financial assistance, etc.).

## About Dr. Yuksel A.

Dr. Yuksel A. is a highly experienced dentist with more than 30 years of clinical practice in dentistry, supported by a strong and internationally diverse educational background. He completed his Bachelor's Degree in Dentistry at the Faculty of Dentistry in Plovdiv, Bulgaria (1987–1992) and later continued his academic and professional development in Turkey, where he obtained his Doctor of Dental Medicine degree and completed a PhD in Orthodontics at Ege University.

Throughout his long career, Dr. Yuksel has worked extensively in private practice, providing comprehensive dental care to a wide range of patients. While he has significant experience in orthodontics, he is fully aware that his orthodontic specialization from Turkey is not automatically recognized in the Netherlands. He is therefore consciously and realistically prepared to work as a general dentist, bringing with him decades of clinical experience, strong diagnostic skills, and a disciplined, structured approach to patient care.

Dr. Yuksel is known for his calm demeanor, professionalism, and precision in clinical work. He values ethical practice, clear communication with patients, and effective collaboration within the dental team. His extensive academic background and international training have strengthened his evidence-based mindset and his ability to adapt to different healthcare systems.

For Dr. Yuksel, moving to the Netherlands represents a thoughtful next step — an opportunity to continue practicing dentistry at a high professional level, make use of his orthodontic knowledge within general practice, and build a secure and balanced future for his family in a modern, forward-looking society.
